

			LEED Point Range
	CLIMATEMASTER Water Source Heat Pumps www.climatemaster.com	<ul style="list-style-type: none"> ▶ R-410A - Environmentally friendly refrigerant ▶ 27 EER - Highest in the industry ▶ Ultra-Quiet through several vibration design features ▶ ECM fan motors 2 dual stage compressors 	1-10
	Tower Tech Cooling Towers www.towertechinc.com	<ul style="list-style-type: none"> ▶ Lowest KW per ton ▶ 25+ year life -cycle via fiberglass construction ▶ Multiple fan technology with variable speed drive ▶ Quiet and completely assembled up to 1000 tons ▶ 20-30% reduction of MU Water & Chemicals 	1-10
	INTERNATIONAL ENVIRONMENTAL Fan Coil Units www.iec-okc.com	<ul style="list-style-type: none"> ▶ Terminal system units save energy over large AHU/RTU systems ▶ 4 pipe performance with 2 pipes (sure flow) ▶ Low wattage circulating pump further reduced horsepower 	1-10
	PETRA Air Handlers, Chillers & Condensers www.petra-eng.com	<ul style="list-style-type: none"> ▶ Superior quality construction ▶ 125F Ambient design provides premium efficiency ▶ R-134A/ R-407C Environmentally friendly refrigerants ▶ Custom sizes to fit the design requirements ▶ Higher quality at comparable cost 	1-10
	CGC/ITP Group Hybrid WSHP www.cgc-group.com	<ul style="list-style-type: none"> ▶ Water cooled AC with hot water heating coil ▶ Water source heat pump design, better performance ▶ Minimum maintenance compared to WSHP units ▶ Up to 30% electrical savings ▶ 2 GPM per ton 	1-10
	Canatal International Inc. Server & Computer Room A.C. www.canatal.com	<ul style="list-style-type: none"> ▶ Server room HVAC Systems ▶ R-407C – Environmentally friendly refrigerant ▶ Lowest fan horsepower in the industry ▶ Extremely high sensible heat ratio for computer room design 	1-10
	Clean Air Design Heat Recovery Units www.cleanairdesign.com	<ul style="list-style-type: none"> ▶ Heat recovery units of wheel, plate and heat pipe ▶ Competitive design and various configurations ▶ Custom design to meet the requirements specified 	1-2
	NuClimate Air Induction Unit Ventilators www.qairterminal.com	<ul style="list-style-type: none"> ▶ Replaces unit ventilator & no freeze stats ▶ Terminal unit uses induction technology ▶ Exceptional IAQ performance ▶ Extremely low noise level for classrooms ▶ No moving parts, reduced maintenance 	1-16
	PARAGON CONTROLS Air Flow Measuring Stations www.paragoncontrols.com	<ul style="list-style-type: none"> ▶ Accuracy down to 0.1% FS – Less than 100 FPM ▶ Field configurable engineering units ▶ Custom applications for difficult locations 	1-10
	EASI Specifically Designed Pool Dehumidification System www.qairterminal.com	<ul style="list-style-type: none"> ▶ Compressor design = 70% electrical savings ▶ Simplistic design requires less maintenance ▶ Direct drive aluminum plenum fans with VFDs ▶ Double wall aluminum construction with vertical heat pipe 	1-11

	<p>JOHNSON - MARCRAFT Air Rotation and Custom Air Handlers www.johnson-marcraft.com</p>	<ul style="list-style-type: none"> ▶ 4" Double wall standard (higher thickness available) ▶ High efficiency energy recovery units ▶ Custom built configurations ▶ Rooftop penthouses 	-
	<p>Smartd Cooling Water Cooled and Air Cooled Chillers www.smartd.com</p>	<ul style="list-style-type: none"> ▶ Turbocor centrifugal dual stage compressor (s) ▶ Quiet operation at less than 71 dbA ▶ Premium efficiency operation down to .35 Kw/ton IPLV ▶ Sizes from 90 to 700 tons 	1-11
	<p>TECOGEN Engine Driven Technologies www.tecogen.com</p>	<ul style="list-style-type: none"> ▶ Engine driven technologies for cogeneration, chillers and condensing units ▶ Various design chillers for flexible selection ▶ Refrigeration duty industrial compressor packages ▶ Black start synchronous co-gen 	1-11
	<p>HERRMIDIFIER Humidification Systems www.herrmidifier.com</p>	<ul style="list-style-type: none"> ▶ Herrdraulic water system reduces energy consumption ▶ Multiple source – Electric, Steam, or Water ▶ IAQ Requirements to meet applications and codes 	1-10
	<p>THERMAX Absorption Chillers www.thermax-usa.com</p>	<ul style="list-style-type: none"> ▶ Multi-fuel capable including steam, gas, oil, and biofuel ▶ Duel fuel capable ▶ Reduces electrical cooling requirement by use of waste heat ▶ Largest Manufacturer of absorption chillers 	1-1
	<p>Reliable Controls Building Automation www.reliablecontrols.com</p>	<ul style="list-style-type: none"> ▶ BACnet tested and BTL listed- interfaces with other manufactures BACnet compliant products ▶ Backward compatible – upgraded firmware guarantees future compatability ▶ UL-864 UUKL approved – UL listed to perform fire and smoke control integration ▶ 5 yr warranty - any questions on why it's called reliable 	1-6
	<p>CRYOGEL Ice Ball Thermal Storage www.cryogel.com</p>	<ul style="list-style-type: none"> ▶ Ice ball thermal storage ▶ System is "Leak Proof" ▶ Highest surface area in the industry ▶ Smallest footprint per ton hour 	1-5
	<p>Hy-SAVE Magnetic Refrigerant Liquid Pumps www.hysave.net</p>	<ul style="list-style-type: none"> ▶ Reduces electrical energy by mechanical sub-cooling ▶ Free cooling applications for low ambient systems ▶ Heat pipe pumping applications 	1-1
	<p>INOV8 Waste Fuel Boilers & Furnaces www.inov8-intl.com</p>	<ul style="list-style-type: none"> ▶ Fuel source can be engine oils, food oils, and more ▶ Multiple waste fuel furnaces, boilers, and HW heaters ▶ Reduce hazardous waste requirements and costs ▶ Cleaner burning than residential oil heating equipment 	1-3
	<p>HydroProducts Company New or Retrofit Steam Trap Substitute www.hydroproductscompany.com</p>	<ul style="list-style-type: none"> ▶ Steam saver nozzles ▶ Minimal maintenance required on steam traps ▶ Reduce condensate pipe size ▶ 10-20% energy savings, and water reductions ▶ 10 year warranty 	1-11
